◇ paper cutting machine technical parameter

model	unit	QZK920M10
Cutting width	mm	920
Cutting length	mm	920
The cutting height	mm	110
Front extension of bench	mm	610
Table height	mm	930
The motor power	kw	3
Maximum paper pressure	daN	3500
Cutting speed	times/min	42
The net weight	kg	2300
Overall dimensions	m	2.3×2.0×1.5
Packing size	m	2.4×1.42×1.7

◇ Equipment display

M1010 INCH COLOR LCD

*Uses 10 inch color touch LCD computer control system form Taiwan,with a capacity of 1,000,000 programs and over 50 self -diagnosing functions.

＊ **Self-diagnosis displays cause of problem and solution.**

*The interface color can be changed at the operator's discretion.

*All major languages are available at the touch of a button.

*Display precision is 0.01mm,the system's mechanical accuracy is 0.01mm,backguage speed is 15m/min.

◇ Patent list

No.	Item	Patent No.
1	Structure of Paper press for office use	ZL201720069870.3
2	A Safe Operating Hydraulic Mechanism	ZL201820530673.1
3	A New Type of Safety Hydraulic Mechanism	ZL201820531716.8
4	Supporting rotating disc of die-cutting machine	ZL201820328948.3
5	Pumping plate bracket device of die cutting machine	ZL201820328769.X
6	Three-Phase Travel Limiting Combination Device of Die Cutting Machine	ZL201820328766.6
7	Feeding unit of die cutting machine	ZL201820328715.3
8	Hydraulic Pressure with Safe Standing Operating Zone	ZL201820530679.9
9	Paper Lifting Device for Automatic Rising Paper Cutter	ZL201620152380.5
10	Flexible Paper Pressing Mechanism	ZL201620153462.1
11	Compensation Paper Lifting Device	ZL201620153185.4
12	The mechanism with adjustable paper lifting device	ZL201620151556.5
13	Mechanism with paper lifting device	ZL201620152456.4
14	Paper pressing mechanism	ZL201620155418.4
15	An mechanism	ZL201620152945.X
16	An office mechanism	ZL201720067280.7
17	Safety switch	ZL201720068618.0
18	An mechanism for office use.	ZL201720067278.X
19	Self-balancing paper-pressing mechanism	ZL201720069514.1

◇ ABOUT DAI'S

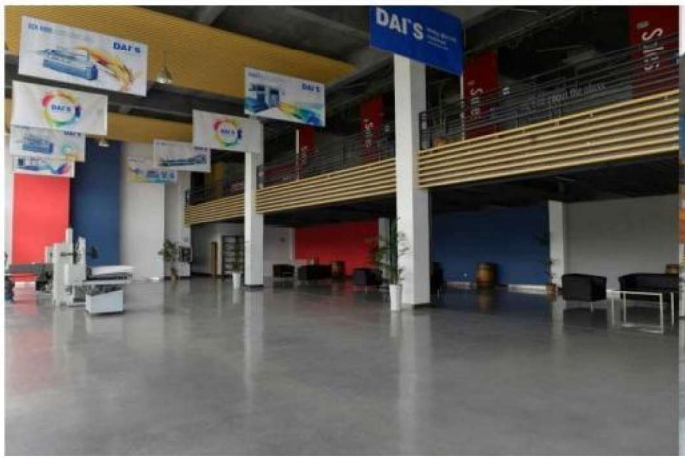
DAI'S PRINTING MACHINE CO,.LTD

Dai's Printing Machinery Co., Ltd. is by production Postpress equipment has a long history of Ruian City, Zhejiang Province, Xinhua printing machine factory with the French Bafang company, in 1993 as a joint venture, planning a total investment of 19 million dollars, covers an area of 50000 square meters. Company name from the original NPC vice chairman Long Fei personally wrote, located in the beautiful scenery of Zhejiang Province Lishui City Economic Development Zone and Ruian international automobile and motorcycle fittings industrial park, the traffic is very convenient. So far, Dai's main products have been sold in more than 50 countries and regions of the United States, Britain, France, Italy, Russia, Brazil and other.

For more than 30 years, our glorious become member of China Printing Industry Printing Machinery Industry Association, and was the State Administration of quality and technical supervision sampling of qualified, the QZH1300 cutter won the provincial technical appraisal of new products, was awarded the title of famous and excellent technological products, master a number of national patents, has pentahedron gantry machining center, high precision vertical machining center and the robot plasma cutting machine, and so on computer numerical control equipment more than 30 sets, escort for the production of excellent quality products.

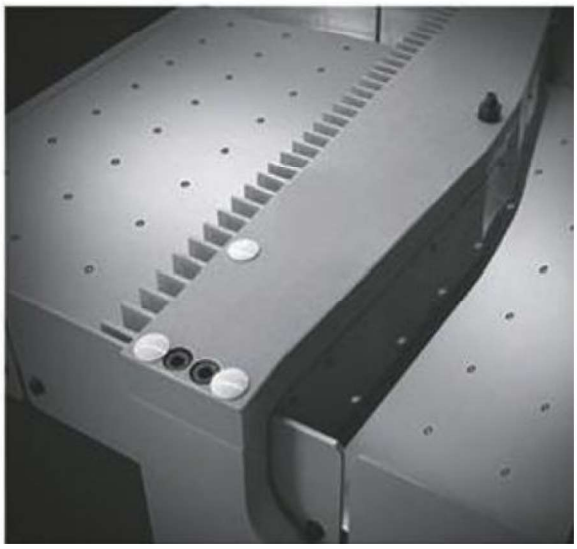
Dai's people are striving to build an internationally renowned brand with international influence from an international perspective,adhering to the policy of"market-oriented,service-oriented,quality-oriented,technology-oriented development".Increase the intensity of product research and development, steady development.Dai's sincerely cooperate with people at home and abroad to create a better future for each other's development.

COMPANY PHOTO



Machine details

*Ball lead screw and linear guide-rail makes paper impeller run smooth,low noise,accurate positioning,enhance the cutting precision and speed greatly,prolong the service lift of paper cutter.



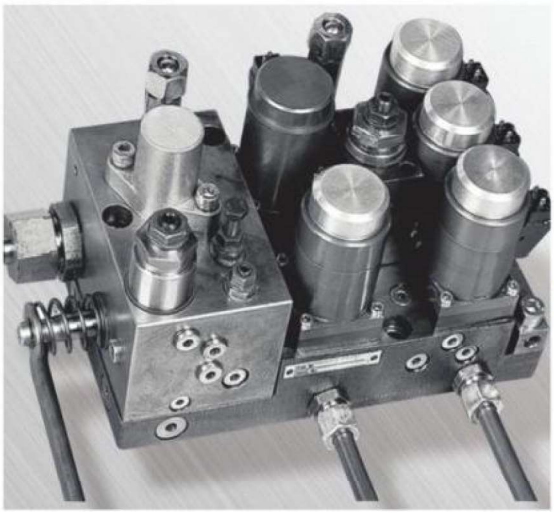
*The working tables are all chrome-plated and equipped with air balls which makes paper-pushing easily and rusty-proof.Large side working table(1000X800mm)is optional.

Machine details

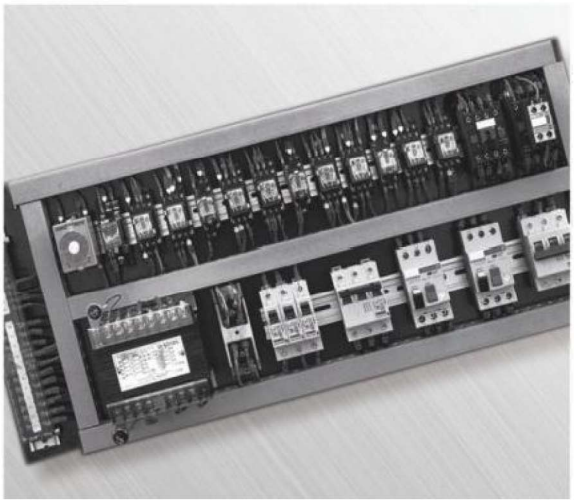
*Safety device for knife bed,overloading protect-ion for cutting,automatic return safety device

*To provide infrared grating ciruit protection,in line with european ce standards.

Machine details



*Imported hydraulic components are adopted in hydraulic system,the pressure can be adjusted,The paper is pressed twice by pressure-increased System



*Imported electric components LG、OMRON、siemens.

DAI`S
无忧服务
为您开启行业先河

售后
无忧
行业领先的响应速度，极速为您提供线上及上门服务，当年回访服务

开机
无忧
戴氏机长培训班为您培训机长、输送机长，购机第一时间开工挣钱

金融
无忧
小资金 大生意 戴氏为您提供多种金融方案

◇ Service after sales

DAI'S printing machine co,.Ltd in addition to possessing product qualification certificate, die cutting machine guarantees:

1. The flat die cutting indentation machine of our company meets the requirements of the quality standard stipulated in the national standard JB/T 8116.1-1998.

2. Starting from the completion of installation and commissioning of the product, our company will provide12 months in the correct maintenance and use state. Free maintenance, life-long maintenance service "except man-made damage and improper use" for domestic market, other country buyer need to pay all cost of engineer.

3. Machine parts damaged by non-human factors during the warranty period shall be replaced free of charge, excluding parts damaged by irregularities or misoperation of machine consumables caused by operators, and the cost of parts shall be charged.

4.The price of spare parts outside the warranty period shall be the lowest ex-factory price of our Company.

5. In addition to the standard machine configuration stipulated in the contract, customers need additional accessories at the lowest ex-factory price of our company.

6.Parts shall be supplied for up to 7 days.

7.Other country buyer need to pay all cost of engineer.
